ISSUES 363-374

THE ANNUAL EQUUS INDEX

BOB LANGRISH

A

Abscesses
- On Watch for Pigeon Fever (F) 368/30

Acupuncture
- A Sensible Approach to Alternative Therapies (F) 374/34

Advanced Regenerative Therapies
- Joint Health Support Options (F) 374/62

Age and Aging
- Aging and bone loss (C) 365/79
- Changing body shape as a horse ages (C) 368/76
- EPM risk factors (MF) 369/17
- Coping With Arthritis (F) 370/34

Algometry
- Looking for Ways to End Soring (F) 370/55

Allergies
- Sweet itch myth debunked (MF) 364/8

Alternative Therapies
- A Sensible Approach to Alternative Therapies (F) 374/34

Anesthesia
- Standing sedation (MF) 370/18

Antibodies
- Testing for failure of passive transfer in foals (MF) 363/12
- Ginseng effects on immune response (MF) 363/13

Anxiety and Fear
- Asymmetrical patterns in flight response (MF) 363/14
- Social component of learning behavior (MF) 367/18
- Tail-rubbing during travel (HO) 368/21
- Help Your Horse Become a Better Patient (F) 373/34

Arthritis
- Botox to ease arthritis pain (MF) 363/15
- Timing administration of bute (HO) 366/17
- Prepurchase Exams: What the Results Can Tell (SR) 366/40
- Coping With Arthritis (F) 370/34
- Joint Health Support Options (F) 374/62

Atrial Fibrillation
- Rare cardiac condition (CR) 371/23

B

Backs and Back Problems
- How hind-limb lameness affects the back (MF) 369/20

Bacteria
- Dealing with geese in the pasture (C) 364/79
- The ERU Threat (F) 365/30
- MRSA transmission (MF) 367/17
- On Watch for Pigeon Fever (F) 368/30
- The Basics of Botulism (F) 373/48
- Bacterial death linked to laminitis (MF) 374/13

Bandages and Wraps
- Wrapping Clinic, Part 1: The standing wrap (VS) 371/20
- Wrapping Clinic, Part 2: Wound wrap (VS) 372/22
- Wrapping Clinic, Part 3: The knee wrap (VS) 373/18
- Wrapping Clinic, Part 4: The hock wrap (VS) 374/20

Bathing and Cleaning
- Hot-towel cleaning technique (VS) 363/21
- Stain-removal strategies (C) 363/74
- Waterless bathing (HO) 364/11
- More Grooming to Win (F) 366/57

Bedding
- Stain-removal strategies (C) 363/74
- Speed-cleaning a horse's stall (HO) 364/11
- Different bedding materials compared (MF) 371/15
- Savvy stall cleaning (HO) 374/17

Behavior and Behavioral Problems
- Asymmetrical patterns in flight response (MF) 363/14
- Feeding flexibility (HO) 363/17
- Body Language (CM) 363/28
- Reforming a horse who kicks (C) 364/78
- Why a horse flinches (HO) 365/15
- Source of lip flapping (C) 365/76
- Horse kicks at mealtime (C) 365/76
- Social component of learning behavior (MF) 367/18
- Reforming a trail muncher (HO) 367/24
- Pseudohermaphroditism (CR) 367/29
- How to Mellow a Moody Mare (F) 367/58
- Tail-rubbing during travel (HO) 368/21
- Tooth grinding (C) 368/75
- Bridling problems (C) 369/72
- How social status affects learning (MF) 370/14
- Ovariectomy to improve behavior (MF) 370/18
- Lame on the trail (HO) 370/22
- Evidence of herd infighting (HO) 370/23
- Horse who paces in his pasture (C) 370/80
- Horse who won't lift a hind leg (C) 370/82
- Saliva production in cribbers (MF) 371/12
- What horses do at night (HO) 371/17
- Cribbing and epiploic foramen entrapment (MF) 372/17
- A cocked hind leg (HO) 372/19
- Inappropriate erections (C) 372/75
- Catching and eye contact (MF) 373/11
- Cribbing and learning (MF) 373/13
- Common Feeding Problems Solved (F) 373/28
- Help Your Horse Become a Better Patient (F) 373/34
- Horse who whinnies at shows (C) 373/74

Biomechanics
- Showing in Slow Motion? (HW) 366/12

Birth Defects
- Wry nose treatment (MF) 368/18

Blankets and Sheets
- Spring Cleaning Simplified (F) 367/72
- Finding the cause of an itch (HO) 368/21
- Are Your Blankets Ready for Winter? (F) 372/47
- A quarter sheet for cold-weather workouts (HO) 373/15
- Blanketing older horses (C) 373/75

Blood and Blood Disorders
- When transfusions are necessary (MF) 364/6
- Platelet-rich plasma to treat ligament damage (MF) 371/13

Boarding and Boarding Stables
- 10 Ways to Be a Better Boarder (F) 363/32

Bone Fragility Syndrome
- Bone fragility syndrome (HW) 374/31

Botulism
- The Basics of Botulism (F) 373/48

Brain and Brain Disorders
- 7 Things You (Probably) Didn't Know About Rabies (F) 364/26
- Equine sleep investigated (MF) 373/10
- Cribbing and learning (MF) 373/13
- Bacterial meningitis (CR) 373/21

Breakdowns
- What's at the Heart of Breakdowns? (F) 368/46
- Eventing and horseracing tragedies fuel call for changes (RU) 370/71
- Eight Belles to be buried at the Kentucky Derby Museum (RU) 371/65
- Safety of Thoroughbred racing questioned (RU) 372/65
- States adopt new steroid rules (RU) 374/74

Bridles
- Evaluating bridle fit (VS) 365/18
- Bridling problems (C) 369/72

Bruxism
- Tooth grinding (C) 368/75

Buying and Selling Horses
- Horse Trends (F) 364/50
- Florida drafts horse-sale regulations (RU) 364/72
- Prepurchase Exams: What's Involved (SR) 366/30
- Prepurchase Exams: How It's Done (SR) 366/33
- Prepurchase Exams: What the Results Can Tell (SR) 366/40
- Prepurchase Exams: Legal Matters (SR) 366/44

C

Cancer
- Light therapy to combat skin cancers (MF) 363/15
- Progressive ethmoid hematoma (CR) 364/17
- Treatment for melanoma (C) 364/78

Cardiovascular System and Disorders
- What's at the Heart of Breakdowns? (F) 368/46
- Rare cardiac condition (CR) 371/23

Cartilage
- Blood test for osteoarthritis (MF) 371/14
- Joint Health Support Options (F) 374/62

Castration
- Pseudohermaphroditism (CR) 367/29

Catching Horses
- Catching and eye contact (MF) 373/11

Cellulitis
- Detecting and treating cellulitis (MF) 366/9

GUIDE TO ABBREVIATIONS

(BC)	Behavior Clinic	(HW)	Health Watch
(BP)	Back Page	(MF)	Medical Front
(C)	Consultants	(PER)	Perspective
(CM)	Chart of the Month	(RU)	Roundup
(CR)	Case Report	(SR)	Special Report
(F)	Feature	(TT)	True Tale
(HO)	Hands On	(VS)	Vital Skills

Chiropractic Medicine
- A Sensible Approach to Alternative Therapies (F) 374/34

Choke
- How to Handle Choke (F) 363/38
- Handling choke (C) 368/75

Chronic Obstructive Pulmonary Disease *(see Recurrent Airway Obstruction)*

Coat and Hair
- Stain-removal strategies (C) 363/74
- Signs of Cushing's syndrome (HO) 368/23
- Hair whorls and sidedness (MF) 372/15
- Blanketing older horses (C) 373/75

Colic
- Severe colic (CR) 363/23
- Link between tapeworms and colic (MF) 364/7
- Colic early warning signs (HO) 366/15
- Stomach impaction (CR) 369/27
- Lidocaine to prevent post-op complications (MF) 370/15
- Cribbing and epiploic foramen entrapment (MF) 372/17
- How to Identify Mild Colic (F) 372/32
- Help for the ulcer-prone horse (C) 374/82

Coloration and Markings
- Treatment for melanoma (C) 364/78
- White coat genetics (MF) 365/9
- Coat colors that fade in the summer (C) 366/74
- Birdcatcher spots (C) 371/74
- Silver dapple colored horse (C) 373/74

Composting
- How Green Is Your Farm? (F) 371/40

Compounding Pharmacies
- Hot Topics: Horse industry issues (F) 364/44

Cough *(see Respiratory System and Disorders)*

Cresty Neck Scores
- Cresty neck score assesses laminitis risk (MF) 372/16

Cribbing
- Saliva production in cribbers (MF) 371/12
- Cribbing and epiploic foramen entrapment (MF) 372/17
- Cribbing and learning (MF) 373/13

Cushing's Disease (PPID)
- Aging and bone loss (C) 365/79
- Signs of Cushing's syndrome (HO) 368/23
- Changing body shape as a horse ages (C) 368/76
- PPID and immune function (MF) 370/17
- Safely grazing a Cushing's horse (C) 372/73
- Cushing's syndrome false positives (HO) 373/16

D

Dehydration
- Stomach impaction (CR) 369/27
- Heat Stress Prevention Strategy (F) 370/58

Dentistry *(see Teeth and Dentistry)*

Diagnostic Tools and Techniques
- Testing for failure of passive transfer in foals (MF) 363/12
- Lumps and bumps on the lower leg (HO) 363/19
- Body Language (CM) 363/28
- Link between tapeworms and colic (MF) 364/7
- Determining the origin of bleeding (HO) 364/12
- Why a horse flinches (HO) 365/15
- The ERU Threat (F) 365/30
- How Bad Is That Cough? (F) 365/46
- Summer sore diagnosis (MF) 366/11
- Colic early warning signs (HO) 366/15
- Pseudohermaphroditism (CR) 367/29
- EPM Status Report (F) 367/38
- Finding the cause of an itch (HO) 368/21
- Tests for equine protozoal myeloencephalitis (HO) 368/23
- On Watch for Pigeon Fever (F) 368/30
- What's at the Heart of Breakdowns? (F) 368/46
- Hearing-impaired horses (C) 368/74
- Genetic test for PSSM (MF) 369/18
- The Essentials of Parasite Control (F) 369/34
- Evidence of herd infighting (HO) 370/23
- Tail injury (CR) 370/29
- Coping With Arthritis (F) 370/34
- Looking for Ways to End Soring (F) 370/55
- Heat Stress Prevention Strategy (F) 370/58
- Blood test for osteoarthritis (MF) 371/14
- Rare cardiac condition (CR) 371/23
- Cribbing and epiploic foramen entrapment (MF) 372/17
- How to Identify Mild Colic (F) 372/32
- Cushing's syndrome false positives (HO) 373/16
- Recognizing tying up as early as possible (HO) 374/18

Diet and Nutrition
- Total Mixed Ration cubes (MF) 363/13
- How to Handle Choke (F) 363/38
- Feeding hay for warmth (C) 363/70
- Factors to consider in feed rations (MF) 366/11
- Escape-proof muzzle (C) 366/76
- Feeding to Reduce Laminitis Risk (F) 367/49
- Horse taste preferences (C) 367/88
- Stomach ulcers and confinement (MF) 369/16
- Nerve disorder linked to tainted silage (MF) 369/18
- Straight Talk About Feed Tags (F) 369/42
- From Racetrack to Riding Ring (F) 369/59
- Cause of red-bag deliveries (C) 369/70
- Special Report: Buying Hay in Trying Times (SR) 370/44
- Crimped vs. whole oats (C) 370/81
- Saliva production in cribbers (MF) 371/12
- Alfalfa hay and enteroliths linked (MF) 371/14
- Natural dewormers (C) 371/75
- Gastric ulcers in broodmares (MF) 372/15
- How to Identify Mild Colic (F) 372/32
- Strategy for Stronger Hooves (F) 372/40
- Safely grazing a Cushing's horse (C) 372/73
- Supplements increase omega-3 fatty acids (MF) 373/13
- Common Feeding Problems Solved (F) 373/28
- Blanketing older horses (C) 373/75
- Bacterial death linked to laminitis (MF) 374/13
- Chores you can do in an hour (HO) 374/17
- Help for the ulcer-prone horse (C) 374/82

Digestive System and Disorders
- Severe colic (CR) 363/23
- How to Handle Choke (F) 363/38
- Link between tapeworms and colic (MF) 364/7
- Cecal impaction survival rates (MF) 365/10
- Colic early warning signs (HO) 366/15
- Preventing sand colic (MF) 368/14
- Handling choke (C) 368/75
- Stomach ulcers and confinement (MF) 369/16
- Stomach impaction (CR) 369/27
- Lidocaine to prevent post-op complications (MF) 370/15
- Saliva production in cribbers (MF) 371/12
- Alfalfa hay and enteroliths linked (MF) 371/14
- Gastric ulcers in broodmares (MF) 372/15
- Cribbing and epiploic foramen entrapment (MF) 372/17
- How to Identify Mild Colic (F) 372/32
- The Basics of Botulism (F) 373/48
- Help for the ulcer-prone horse (C) 374/82

Digital Radiography
- Looking for Ways to End Soring (F) 370/55

Draft Horses
- A Strong Pull (F) 368/54
- Endangered draft horse breeds (RU) 369/68

Dressage
- Missing painting of dressage horse (RU) 365/69
- Swiss dressage rider not going to Olympics (RU) 367/82
- Eventing's Next Big Test (F) 371/30

Dust and Dust Control
- How Bad Is That Cough? (F) 365/46
- What Your Horse Wants in a Trailer (F) 371/58

E

Ears and Hearing Disorders
- Body Language (CM) 363/28
- Hearing-impaired horses (C) 368/74

Eastern Equine Encephalomyelitis
- Vaccination guidelines (MF) 367/16
- The ABCs of EEE (F) 369/50

Enteroliths
- Alfalfa hay and enteroliths linked (MF) 371/14
- How to Identify Mild Colic (F) 372/32

Equine Activity Statutes
- Liability Law Reality Check (F) 374/44

Equine Dysautonomia
- The Basics of Botulism (F) 373/48

Equine Equity Act
- Equine Equity Act (RU) 366/68
- Bill makes horse breeders eligible for federal aid (RU) 371/65

Equine Herpesvirus
- Equine herpesvirus mutation (MF) 366/10
- Vaccination guidelines (MF) 367/16

Equine Influenza
- Australia nearly free of equine influenza (MF) 368/17

Equine Insect Hypersensitivity
- Sweet itch myth debunked (MF) 364/8

Equine Protozoal Myeloencephalitis
- EPM Status Report (F) 367/38
- Tests for equine protozoal myeloencephalitis (HO) 368/23
- EPM risk factors (MF) 369/17

Equine Recurrent Uveitis
- The ERU Threat (F) 365/30
- Where Blindness Is No Obstacle (BP) 365/86

Estrus
- How to Mellow a Moody Mare (F) 367/58

Ethmoid Hematomas
- Progressive ethmoid hematoma (CR) 364/17

Eventing
- Powerhouse Pony (F) 364/34
- Fédération Equestre Internationale hosts eventing safety forum (RU) 367/81
- Preparations for Summer Olympics (MF) 368/15
- Eventing and horseracing tragedies fuel call for changes (RU) 370/71
- Eventing's Next Big Test (F) 371/30
- Theodore O'Connor euthanatized (RU) 371/65
- Michael Plumb enters Olympic Hall of Fame (RU) 372/66

Exertional Rhabdomyolysis
- PSSM prevalence (MF) 363/14
- Another cause of tying up (MF) 365/9
- Genetic test for PSSM (MF) 369/18
- Recognizing tying up as early as possible (HO) 374/18

Extracorporeal Shock Wave Therapy
- Coping With Arthritis (F) 370/34
- A Sensible Approach to Alternative Therapies (F) 374/34
- Joint Health Support Options (F) 374/62

Eyes and Vision Disorders
- Body Language (CM) 363/28
- The ERU Threat (F) 365/30
- Where Blindness Is No Obstacle (BP) 365/86

- Standing sedation (MF) 370/18
- Emergency eye protection (VS) 370/25
- What horses do at night (HO) 371/17
- Success of corneal transplants (MF) 372/17

F

Failure of Passive Transfer
- Testing for failure of passive transfer in foals (MF) 363/12

Farriers and Farriery
- A Consumer's Guide to Horseshoes (F) 365/38
- Timing administration of bute (HO) 366/17
- Trims vary by farrier (MF) 369/20
- Horse who won't lift a hind leg (C) 370/82
- Strategy for Stronger Hooves (F) 372/40
- Help Your Horse Become a Better Patient (F) 373/34

Feed and Feeding *(see Diet and Nutrition)*

Feed Labeling
- Straight Talk About Feed Tags (F) 369/42

Feed Storage
- EPM Status Report (F) 367/38
- Fixing property hazards (HO) 373/15

Feed Supplements
- Ginseng effects on immune response (MF) 363/13
- Supplement affects stride length (MF) 365/10
- Feeding to Reduce Laminitis Risk (F) 367/49
- Glucosamine and insulin resistance (C) 369/70
- Supplements increase omega-3 fatty acids (MF) 373/13
- Common Feeding Problems Solved (F) 373/28
- Joint Health Support Options (F) 374/62

Fencing
- Fence-saving measures (HO) 363/18
- Opening pasture corner angles (HO) 365/17
- Spring Cleaning Simplified (F) 367/72
- Fixing property hazards (HO) 373/15

Fertilizer
- Grazing after treatment with fertilizer (C) 366/75

Fires and Fire Prevention
- Southern California fires force evacuation of horses (RU) 364/72
- Horse barn odors that warrant immediate investigation (HO) 365/16
- Range Fire (F) 371/48
- Wildfires force the Tevis Cup cancellation (RU) 373/66

Foaling
- Recovery rates for mares who hemorrhage (MF) 366/9
- Cause of red-bag deliveries (C) 369/70
- Cloned horse delivers her first foal (RU) 370/72
- Two Przewalski foals born (RU) 373/67

Forage
- Nerve disorder linked to tainted silage (MF) 369/18
- How to Identify Mild Colic (F) 372/32
- Common Feeding Problems Solved (F) 373/28

Fractures
- Shattered pastern bone (CR) 365/21
- What's at the Heart of Breakdowns? (F) 368/46
- Gene therapy for fractures (MF) 370/15
- Kick injuries studied (MF) 370/17
- Tail injury (CR) 370/29
- Leg fracture (CR) 374/23

G

Gaits and Gait Analysis
- Showing in Slow Motion? (HW) 366/12

Gene Therapy
- Gene therapy for fractures (MF) 370/15

Genetics
- White coat genetics (MF) 365/9
- Equine herpesvirus mutation (MF) 366/10
- Summer sore diagnosis (MF) 366/11
- Are sarcoids inherited? (C) 367/89
- Genetic test for PSSM (MF) 369/18
- Early embryo loss (MF) 371/13
- Strategy for Stronger Hooves (F) 372/40
- Silver dapple colored horse (C) 373/74

Ginseng
- Ginseng effects on immune response (MF) 363/13

Grass Sickness *(see Equine Dysautonomia)*

Grazing
- Dealing with geese in the pasture (C) 364/79
- Grazing after treatment with fertilizer (C) 366/75
- Safely grazing a Cushing's horse (C) 372/73
- Common Feeding Problems Solved (F) 373/28

Grooming
- Hot-towel cleaning technique (VS) 363/21
- Stain-removal strategies (C) 363/74
- Waterless method of bathing (HO) 364/11
- More Grooming to Win (F) 366/57

H

Habronemiasis
- Summer sore diagnosis (MF) 366/11

Hay
- How to Handle Choke (F) 363/38
- Feeding hay for warmth (C) 363/70
